PROFESSIONAL SUMMARY

Computer Programming & Analysis student at George Brown College with strong hands-on experience in Java, Spring Boot, Android (Kotlin), and full-stack development. Skilled in building mobile applications, backend APIs, and database-driven systems. Proven ability to debug complex issues, collaborate in team environments, and deliver functional software solutions through academic and project-based work.

TECHNICAL SKILLS

Languages:
Java, Kotlin, JavaScript, SQL

Backend Development:
Spring Boot, Node.js, Express.js, GraphQL, REST APIs

Mobile Development:
Android Development, Jetpack Compose

Databases:
MongoDB, PostgreSQL, MySQL

Tools & Technologies:
Git, GitHub, Docker, Postman, Android Studio, IntelliJ IDEA

EDUCATION

George Brown College — Toronto, Ontario
Advanced Diploma in Computer Programming & Analysis
Expected Graduation: April 2026

Nawab Shah Alam Khan College of Engineering and Technology
Diploma in Civil Engineering

PROJECT EXPERIENCE

SnapCal Mobile Application (Capstone)

- Developed an Android application using Kotlin and Jetpack Compose to track meals, hydration, and wellness habits
- Implemented UI components and core features to improve usability and user interaction
- Debugged build issues and integrated multiple application modules

---

Microservices Backend Project (Spring Boot)

- Built backend services using Java and Spring Boot following microservices architecture principles
- Designed REST APIs and integrated database functionality
- Worked with Docker environments and resolved configuration issues

---

GraphQL API Project

- Developed a backend using Node.js, GraphQL, and MongoDB
- Implemented schema design, resolvers, and query handling
- Tested and validated API functionality using development tools

---

Restaurant API Project

- Created an Express.js backend application with MongoDB integration
- Implemented CRUD operations for a structured restaurant database
- Organized project using models and routes for scalability

DevOps Collaboration Project

- Managed GitHub repositories using branching, commits, and pull requests

- Implemented CI workflows using GitHub Actions
- Collaborated in a team environment and contributed to documentation

---

PROFESSIONAL EXPERIENCE

Asset Protection Associate — Walmart

- Monitored store operations and ensured safety compliance
- Maintained incident reports and demonstrated strong attention to detail
- Worked in a fast-paced environment requiring problem-solving and communication skills

---

CORE COMPETENCIES

- Problem Solving
- Debugging
- Team Collaboration
- Communication
- Time Management
